

Appendix A

Common Kosher Symbols (Hechsher's)

These are the most common markings by national organizations (Please note that an R inside a circle is not a kosher symbol, it is the symbol of a registered trademark):

However, there are many other local and regional organizations which supervise kashrut, with a variety of symbols (examples below). If you have a question, please consult Rabbi Rosen or a member of the kashrut committee.

For more explanations of these symbols, and other acceptable symbols, see www.kosherquest.org.
